

Professional Summary (Web Developer)

Aspiring Web developer with a strong academic foundation and hands-on experience in developing. Eager to contribute enthusiasm, adaptability, and a fresh perspective to a dynamic team.

Education

- Babasaheb Bhimrao Ambedkar University** MSC IT
Master's degrees, Concentration. Graduation
2023 - Pursuing
- Babasaheb Bhimrao Ambedkar University** BCA
Bachelor of Computer Application, Concentration. 7.9 CGPA Undergraduate
2020 - 2023

Skills

- Programming Languages:** C++, Python, JavaScript
- Frameworks & Tools:** React, Git
- Backend:** Node.js, Express
- Testing:** Postman
- Database Management:** MySQL, MongoDB
- Project Management:** Agile methodologies
- Soft Skills:** Team collaboration, strong problem-solving, effective communication

Experience

Project Team Member - Go Solar Project

Digipodium, MERN Stack Training
January 2023 - May 2023

- Led a team of 3 students in developing a web-based application.
- Conducted requirement analysis, designed the system architecture, and implemented core functionalities using MERN.
- Integrated third-party APIs to enhance application capabilities, ensuring seamless user experience.
- Coordinated with team members using Agile methodologies, ensuring timely completion of project milestones.

Projects:

- Go Solar Website

Developed a **Go Solar** web application using the **MERN stack** (MongoDB, Express.js, React, and Node.js). The app enables users to explore solar energy solutions, calculate potential savings, and connect with solar providers.

- Gemini Clone

Engineered a Gemini clone app with React, integrating Gemini API for AI-powered chat interactions and user-friendly conversational experiences.

- TO DO website using MERN

Developed a MERN stack Todo application, enabling task management with real-time updates. Implemented secure user authentication, CRUD operations, and a responsive UI, improving productivity and user engagement. Leveraged MongoDB for data storage, Express.js for server-side logic, React.js for the frontend, and Node.js for the backend.
